

CATEGORY	DESCRIPTION
Aircraft (99 courses)	Documents on operating your equipment safely and efficiently.
Airmen - AMTs (75 courses)	Documents and training materials for Aviation Maintenance Technicians
Airmen - Pilots (288 courses)	Documents of special interest to pilots.
Airports (22 courses)	Documents and training materials that relate to the operation of aircraft and vehicles in and around the airport.
Airspace (50 courses)	Documents and training materials related to the U.S. airspace system.
Airworthiness (64 courses)	Documents on airworthiness
Alaskan Operations (2 courses)	Safety outreach and guidance for flying in Alaska
Civil Aeronautics Manual CAM (0 courses)	Airworthiness Standards for older aircraft
FAASafety Representatives (11 courses)	Information and training to help FAASafety Representatives accomplish their work and assignments efficient and effectively.
Flight Instructor Resources (24 courses)	Information and Best Instructional Practices for CFIs
Flight Physiology (9 courses)	FAA Aeromedical Training Programs for Civil Aviation Pilots
Flight Risk Assessment Tool (FAAST FRAT) (3 courses)	Risk Management Calculator
Flying Lessons - A Weekly Safety Discussion (19 courses)	FLYING LESSONS uses the past week's mishap reports as the jumping-off point to consider what might have contributed to accidents, so you can make better decisions if you face similar circumstances.
General Aviation Maintenance Alerts (1 courses)	The Aviation Maintenance Alerts provides the aviation community with an economical means to exchange service experiences and to assist the FAA in improving aeronautical product durability, reliability, and safety.
Guidance, Standards, & Regulations (88 courses)	Documents with information on official guidance, standards, and regulations
Helicopter (3 courses)	Documents related to rotorcraft operations and maintenance.
Human Factors (113 courses)	Documents related to human factors (non technical) aspects of flying
IA Compliance (17 courses)	IA Course Provider Compliance Documents
IA Syllabus Materials (4 courses)	IA Training Provider Syllabi
Local Safety Information (0 courses)	This is a place for FPMs to place safety documents for local issues.
Maintenance Safety Tips (15 courses)	Monthly Maintenance Safety Tips created by the FAA Safety Team
Nuts and Bolts Newsletter (0 courses)	Nuts and Bolts Newsletter for Mechanics is published quarterly by the SW Region
Reference Materials (33 courses)	Safety-related reference materials
Runway Safety (11 courses)	Runway Safety Training Material
Safety Pamphlets (4 courses)	Aviation Safety Program "P-Pamphlets" on a range of topics
Safety Stream (6 courses)	Repository of Safety Stream Documents
Safety Tools (47 courses)	Safety-related resources, including kneeboard-sized pamphlets on various topics
Temporary Course (1 courses)	Temp Course for testing.
Topic of the Month (1 courses)	Monthly safety topics developed by the GAJSC (General Aviation Joint Steering Committee)
Training and Testing Scenarios (55 courses)	Training and Testing Scenarios for Students and Instructors
Unmanned Aircraft System (UAS) (6 courses)	Document library for UAS Systems
Videos and Interactive Content (79 courses)	Multimedia content related to aviation safety.
Weather (47 courses)	Documents and training materials related to aviation weather
What's New on FAASafety.gov! (2 courses)	See What's New on the FAASafety.gov website!
WINGS (7 courses)	FAASafety Documents related to the WINGS Program.
